

Serials Solutions User Workshop Announced

October 29-30 at the University of Illinois - Chicago

September 9 -- Come visit with Serials Solutions users and staff members and discover how you can improve e-resource access, management and assessment at your library. By attending this informative workshop, on October 29-30, you will learn how others are optimizing Serials Solutions 360 services, WebFeat, and Ulrich's online services.

This free workshop, hosted by the University of Illinois – Chicago, will feature panels and presentations on Serials Solutions users-defined topical areas. The program will highlight best practices in e-resource access, management, and assessment. Here is just a sample of what you can discover:

- How one library was able to save over \$100,000 in acquisition costs using 360 Core's Overlap Analysis
- Best practices for the implementation and website deployment of Serials Solutions 360 access products and WebFeat Express
- Helpful tips and tricks to take advantage of the power of our e-resource management applications, including answers to the top ten 360 Resource Manager FAQs
- First-hand accounts of the experiences and decision-making from your colleagues when using Serials Solutions and WebFeat services

The success of this event depends on user participation and a strong program that includes user presentations. We have attached a preliminary program and looking for user presentations. If you are interested in delivering a short presentation (10 to 15 minutes), please add a comment to your registration in the "Comments" field including your proposed topic. We will contact you immediately with further information.

To submit your registration and presentation topic please visit www.serialssolutions.com/2008-user-workshop.html.

We look forward to seeing you in Chicago!
