

## New 360 Search connection developed for HeinOnline

*First authorized connection result of close collaboration between HeinOnline and Serials Solutions*

**October 17** – Serials Solutions is excited to announce a new connection to HeinOnline that represents the first authorized federated search connection to this valuable resource. This new connection is the direct result of close development collaboration with HeinOnline personnel and now provides patrons access tens of millions of pages of unique research material available through HeinOnline via 360 Search.

- If your library has HeinOnline as a part of its 360 Search connection profile we have turned it on for you. We recommend that you review your 360 Search implementation to ensure that this resource appears within the interface as you would like. Specific attention should be focused on any subject categories that you have setup.
- If your library subscribes to HeinOnline and does not have it as a part of the 360 Search connection profile, please proceed to the Support Center or simply email [clients@serialssolutions.com](mailto:clients@serialssolutions.com).

We are committed to partnering with providers like HeinOnline in order to develop superior connections and comprehensive resource coverage for 360 Search.

If you are interested in learning more about 360 Search and do not subscribe to this federated search service, please email [360@serialssolutions.com](mailto:360@serialssolutions.com). As always, service inquiries can be submitted via the Support Center and through [clients@serialssolutions.com](mailto:clients@serialssolutions.com).
