

## Special year-end pricing for new subscriptions is available

*From the Serials Solutions 360 premium suite of services to Ulrich's online services*

**November 12** – Over the past two weeks it's been exciting to talk to librarians about the impending release of our new e-resource assessment service **360 Counter** and respond to those interested in the **special pre-release pricing** we have made available through December 15.

Now we are excited to announce that we are extending **special year-end pricing for new subscriptions** for all of the services we provide – from the Serials Solutions 360 premium suite of services to Ulrich's online services.

- **360 Search** - federated search service
- **360 Link** - OpenURL link resolver
- **360 MARC Updates** - OPAC updating service
- **360 Resource Manager** - e-resource access & management service
- **Ulrichsweb.com** - the first place to find magazines, journals and more
- **Ulrich's Serials Analysis System** - the analytical and reporting toolkit for librarians

Our solutions make it easy for librarians to access, manage and assess your e-resources. Each service helps you optimize your electronic collection and helps your library be the best partner for research.

As the end of the year approaches, we encourage you to take advantage of **special pre-release pricing available for 360 Counter** and the **special year-end pricing available** for new subscriptions to any of our e-resource access and management services.

To hear how our 360 services and the Ulrich's online services can help your library, please email us at [360@serialssolutions.com](mailto:360@serialssolutions.com). We can send you literature on each service and also supply you with pricing specific to your library. You can also register for free webinars at [www.serialssolutions.com/learning.html](http://www.serialssolutions.com/learning.html).

We hope that you'll share in our excitement and take advantage of our special offers.
