

360 Resource Manager Consortium Edition is released

December 18 – We are excited to announce the release of 360 Resource Manager Consortium Edition. This new service represents another crucial step towards improving your ability to manage your collection and improves patron access to group holdings.

The screenshot shows the 'Data Management' home page with a table of library databases. The table has columns for Database, Origin, Code, Status, Titles, Provider, and Collection. The 'Access Medicine' row has a red circle around the 'Status' cell, which contains the text 'From Consortium'.

Database	Origin	Code	Status	Titles	Provider	Collection
ABI/INFORM Trade & Industry	360 Resource Manager Demonstration Library	PTI	Subscribed	1143	ProQuest	Consortium
Academic Research Library	360 Resource Manager Demonstration Library	PRS	Ready [c]	2786	ProQuest	Consortium - ProQuest

AccessON	360 Resource Manager Demonstration Library	AFV	Subscribed	0	NewsBank	
African American Newspapers: The 19th Century	360 Resource Manager Demonstration Library	AAA	Wishlist [c]	3 of 8	Accessible Archives	Wishlist

The Data Management home page will inherit data from your consortium.

Whether you belong to a consortium, several consortia, or share resources with other libraries, this new service will streamline e-resource management workflow and improve communication for everyone. 360 Resource Manager Consortium Edition will save you time while reducing your effort and frustration with the problems associated with consortium managed packages.
