

How can you stay on top of the changes in serials publishing — *and* your library's own serials collection?

U L R I C H ' S
SERIALS ANALYSIS SYSTEM

There's only one toolkit that helps you get a complete picture.

Understand your serials collection with the one serials assessment and analysis tool that brings together an authoritative, global perspective on print and electronic serials resources — **and** a powerful set of reporting options!

Easily create reports to analyze and understand:

- your library's serials collection
- serials holdings across your consortium
- aggregated databases
- serials publishers and their imprints
- subject, language and format coverage

With critical information about serials worldwide!

SELECT STATISTICS TO VIEW

You may choose a set of reports to view by selecting one of the following options:

- Your Library Reports**
View analytical reports for lists you have uploaded into your account. These reports can be compared against our Ulrich's Universe or Ulrich's Core, against a Peer Group, or against an Aggregator database.
- Comparison & Overlap Analysis Reports**
Compare two or more of your uploaded lists. You will have the ability to do a direct one-to-one file comparison, or compare one list to multiple lists to identify gaps and redundancies.
- Aggregator Comparison Reports**
View analytical reports for Aggregator Databases. You will have the ability to compare up to five at one time or compare individual databases to either the Ulrich's Universe or Ulrich's Core.
- Peer Group Reports**
View analytical reports for selected Peer Groups of Institutions. Peer Group consists of institutions who reflect similar demographics, including 12-month FTE, region of the U.S. or Canada, and Carnegie Classification (U.S. libraries only).
- Top Publisher Reports**
View analytical reports for more than 100 serials publishers along with their imprints and divisions. You may compare publishers' offerings to either Ulrich's Universe or Ulrich's Core.

Backed by Ulrichsweb.com™

Ulrich's Serials Analysis System's wide range of evaluative reports is backed by **Ulrichsweb.com**—the authoritative, global database of serials titles, publisher information, abstracting & indexing sources, and electronic journal availability data.

Your subscription to Ulrich's Serials Analysis System includes **unlimited site-wide access to Ulrichsweb.com**.

Ulrichsweb.com is a valuable resource for researchers and faculty!

SerialsSolutions®

Evaluate Serials in the Collection

...by measurable industry benchmarks

How Do SERIALS MEASURE UP?

Serials librarians, collection managers, electronic resource librarians and other library professionals can easily generate and share a variety of reports about the print and electronic serials their libraries have—and don't have. Working with the library's own serials collections, Ulrich's Serials Analysis System integrates the internal and external, evaluative information you need to make collection-critical decisions. Plus, the library's subscription to Ulrich's Serials Analysis System includes sitewide access to Ulrichsweb.com for library staff and patrons.

VIEW LIST DETAILS

The list of serials titles in Ulrich's Core that the library does *not* hold in the subject of Biochemistry appears in this example. The customizable subject-based report screen includes key information about the list of titles: ISSN, Publisher, List Price, and the specific criteria selected for display.

This list can be analyzed in terms of the following specific criteria:

- Publisher
- List Price
- Refereed status
- Abstracted/Indexed
- Electronic availability
- Presence of an ISI® Impact Factor (with JCR® linking for mutual subscribers)
- Recommendation in *Magazines for Libraries*

The report may be sorted by publisher, electronic availability, etc., and the details about each title may be quickly accessed. To learn more about a title, and to see rich bibliographic details from Ulrichsweb.com, simply click on the ISSN.
